

Glastonbury Surgery Center

December 2020

All of us at Glastonbury Surgery Center are pleased to announce that recently we became the first ambulatory surgery center in the State of Connecticut to be awarded the Advanced Orthopaedic Certification by the Accreditation Association for Ambulatory Health Care (AAAHC) for three years.

This is an important milestone in the continuing growth and success of our health care organization. Pursuing this specialty certification shows our commitment to providing the highest levels of quality care to our patients and the same high level of quality in our business practices.

Achieving AAAHC Advanced Orthopaedic Certification is proof that Glastonbury Surgery Center has met the highest level of rigorous orthopaedic care standards of a nationally recognized third party.

Having earned AAAHC Certification, our organization embodies the spirit of 1095 Strong, quality every day, the three-year or 1,095-day period in the certification term during which ambulatory health organizations can develop and foster the kind of everyday habits that enable leaders in the industry to provide the utmost in quality care to their patients.

We are proud to have met the challenge of certification and intend to consistently uphold the principles of quality improvement in patient care.
