

### Glastonbury Surgery Center Earns Top National Award for Outstanding Quality of Care

**Glastonbury, CT, December 6, 2022**– In recognition of its quality and patient safety, Glastonbury Surgery Center was named a Leapfrog Top Ambulatory Surgery Center (ASC) in 2022, one of only 12 selected nationally for the competitive award. This is the second year of Leapfrog’s Top ASC award which honors top performers as verified by the [Leapfrog ASC Survey](#). The award is presented by [The Leapfrog Group](#), a national watchdog organization of employers and other purchasers widely acknowledged as the toughest standard-setters for health care safety and quality.

The quality of patient care across many areas of ASC performance is considered in identifying award winners, including staffing, patient experience, hand hygiene, surgical checklist protocols, and error prevention.

“Glastonbury Surgery Center is honored for the recognition of their hard work to provide high quality safe patient care,” said Cheryl Parent, VP of Operations at Constitution Surgery Alliance, and Administrator of Glastonbury Surgery Center. “I applaud the commitment of all our staff and providers in upholding the highest standards in patient safety and quality care. We recognize patients and providers have many ASC’s to choose from and we are grateful they continue to choose us for their surgery. It is a privilege to care for them.”

“We are proud to honor Glastonbury Surgery Center for their quality and patient safety,” said Leah Binder, president, and CEO of The Leapfrog Group. “They have demonstrated to the community—and to the whole country—that they put patients first. We congratulate everyone who helped achieve this national recognition.”
